

The Southern States Energy Compact is enacted into law and entered into by the State of Georgia with any and all states legally joining therein in accordance with its terms. The compact is substantially as follows:

Article I. Policy and Purpose.

The party states recognize that the proper employment and conservation of energy and employment of energy-related facilities, materials, and products, within the context of a responsible regard for the environment, can assist substantially in the industrialization of the South and the development of a balanced economy for the region. It is the policy of the party states to undertake such cooperation on a continuing basis; it is the purpose of this compact to provide the instruments and framework for such a cooperative effort to improve the economy of the South and contribute to the individual and community well-being of the region's people.
