4:30 p.m.  Return to Hotel / Meeting Adjourned

Tour Information

The tour of the Turkey Point Nuclear Generating Station is limited to attendees who confirmed participation before the meeting. The tour is a unique opportunity for confirmed attendees to see the twin reactor nuclear power station located next to Biscayne National Park located about 25 miles south of Miami, Florida. The facility is owned by Florida Power & Light.

Florida Power & Light Company is the largest energy company in the United States as measured by retail electricity produced and sold, serving more than five million customer accounts or an estimated 10 million+ people across the state of Florida. The company was recognized in 2018 as one of the most trusted U.S. electric utilities by Market Strategies International for the fifth consecutive year. A leading Florida employer with approximately 8,700 employees, FPL is a subsidiary of Juno Beach, Florida-based NextEra Energy, Inc. (NYSE: NEE), a clean energy company widely recognized for its efforts in sustainability, ethics and diversity, and has been ranked No. 1 in the electric and gas utilities industry in Fortune’s 2019 list of “World’s Most Admired Companies.”
