# Grid Resiliency Challenges & Solutions

- Challenges
  - Weather
  - Bulk System Age
- Solutions
  - Revitalization
  - Grid Assurance
  - Transmission

# Getting from here to there ...

Increasing flows across regional seams will be critical to a cost-effective and efficient clean energy future

- **Varying Clean Energy Goals**
- **Seams**
- **Extreme Weather Events**
- **Resource Decentralization**

Thank You.

Stay Healthy  
& Safe
