# Enel: A growing green energy giant

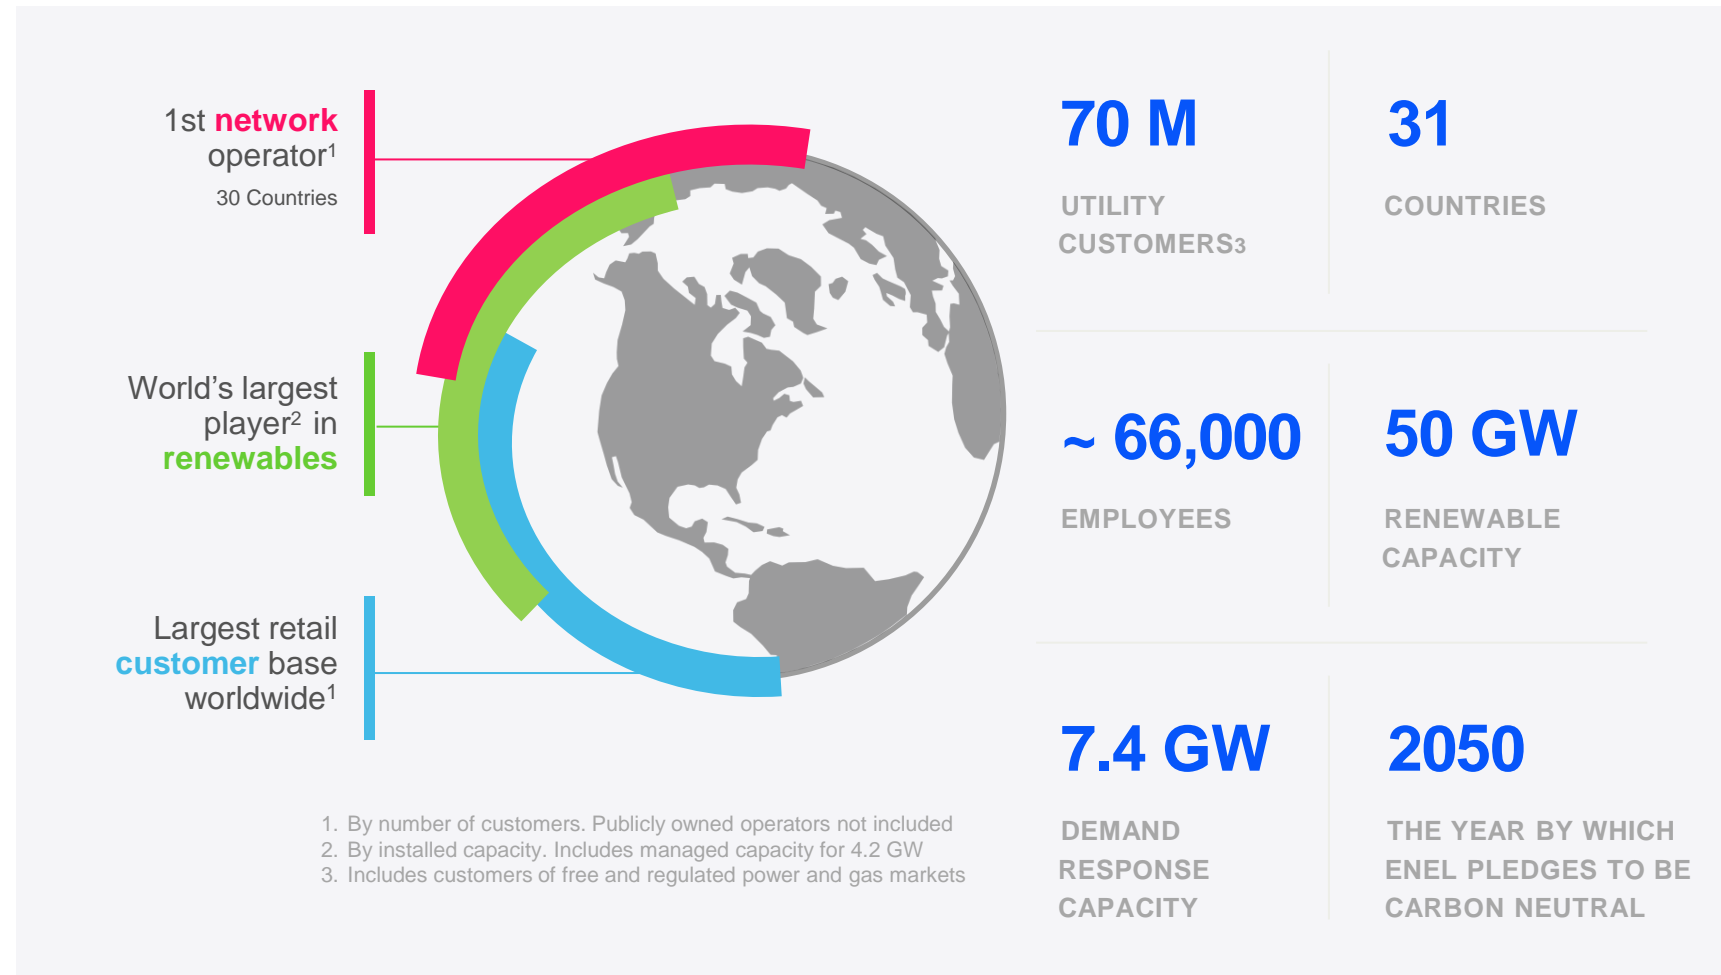

Accelerating the Energy Transition: The focus on decarbonization and electrification

Enel is a multinational power company and a leading integrated player in the global power, gas and renewables markets. We are changing the face of energy as a shaper, leader and enabler of the energy transition.

Enel began as an energy utility over 50 years ago, but today we are not the company we once were.

With a dedicated focus accelerating the energy transition through decarbonization and electrification, we have been listed on the *Dow Jones Sustainability Index* for 17 years and have been included on *Fortune Magazine's "Change the World" list (2015, 2017, 2018)*.

# Enel business

## Global Power Generation

**Accelerates** a sustainable energy transition, increasing **renewables** capacity growth and **decarbonizing** our fleet

## Enel X

**Enables** the energy transition boosting electrification and decarbonization of customers, by providing **innovative services** and **system flexibility**

## Global Infrastructure & Networks

**Guarantees** reliability and quality of service in the energy supply, through **efficient**, **resilient** and **digital** networks

## Energy & Commodity Management

**Optimizes** the Group margin as a single portfolio, finding its **best balance**

## Retail

**Increases** customer value through commodities and “beyond commodities” services also thanks to **customer satisfaction and experience** improvement

# Enel Green Power

## Overview

North America's fifth-largest wind and solar operator, Enel Green Power is at the forefront of integrating innovative technologies into renewable energy power plants. We are committed to growth and have more than doubled our managed capacity over the past five years.

**60 renewable energy power plants for a total capacity of over 6.7 GW including wind, solar, and geothermal plants in the US & Canada.**

Present in **14 US states, 1 Canadian province**

**Produced 20.0 TWh in 2020**, enough energy to power **1.8 million households/year\***

**Created more than 3,500 construction jobs** since 2016

**5<sup>th</sup> largest renewable energy operator in the US\*\***

**\$3B of capital investment** to support growth of renewable capacity, with an average annual growth of **1 GW** over the next three years.\*

**3<sup>rd</sup> Largest Seller of Renewable Energy to Corporate Customers\***

**Bloomberg**
