as of August 2022

Ørsted investments impacting SSEB states

Investing in the U.S. supply chain

*For illustrative purposes only

1. Kiewit offshore substation

First-ever American-made offshore wind substation, serving SFW, creating more than 350 jobs

2. Nexans subsea cable manufacturing

Serving REV, SFW and SRW, creating close to 160 jobs

3. Service Operation Vessel (SOV)

First American-made SOV ever built, serving REV & SRW, creating more than 300 jobs

4. Installation vessel

First charter partners for 472-ft, \$500 million U.S. built vessel, creating 1,000 jobs at peak construction, servicing REV and SRW.

5. Crew Transfer Vessels (CTVs)

Five new American-made CTVs being chartered, creating 80 construction jobs and ~48 jobs for captains and crew who will service SFW, SRW and REV

6. EEW foundation facility

\$250 million investment in New Jersey, creating approximately 260 jobs

7. Advanced Foundation Components (AFC)

Serving SRW & SJW1, creating approximately 230 jobs

8. Array cable manufacturing*

\$140 million factory, creating approximately 300 jobs

9. Offshore Wind Helicopter Contract

\$1.8 million of investment to the Quonset State Airport in North Kingstown, R.I. in the form of new infrastructure and equipment
